## The Green Monkey Records Anthology

**It Crawled From The Basement: The Green Monkey Records Anthology** is a 2 CD set with 28 page booklet, written and remastered for you with love by GMR Prez Tom Dyer.

1983 to 1991 in Seattle, Washington. All things were possible in the post-punk world - the Nirvana grunge explosion had not yet subsumed the city. In this world, Green Monkey Records came and lived and went. It was rock. It was art. It was beautiful.

This 47 track masterpiece covers the label's 44 releases, with tracks by 32 artists. This set is a vital link in the post-punk pre-grunge Seattle music world, it is history that rocks, fer chrissakes. Album features the Green Pajamas' *Kim the Waitress* as well as two previously unreleased Pajamas tracks.

Green Monkey's first release since 1995 is a retrospective that marks the beginning of a new era. This CD is the first of many new releases for the label, with re-releases of back catalog, various historical oddities and all-new material by GMR superstars on the way!
